

# Grade A<sup>®</sup> Ultra 24

## Multi-Purpose Milk Replacer

Grade A<sup>®</sup> Ultra 24 is a multi-species milk replacer to be fed to herd replacement calves, foals, baby pigs, puppies, lambs, goat kids, llama and alpaca crias, fawns and elk calves. May also be used as a dry powder supplement. May be used in liquid or dry powder form for intermittent or supplemental feeding in kittens.

**IMPORTANT NOTE ON NEWBORN ANIMAL CARE:** Every newborn animal should receive colostrum from its own mother as soon as possible after it is born to ensure maximum absorption of protective maternal antibodies. Colostrum is the first milking from the mother following birth, providing nutrients, growth factors, and immune globulin proteins that are crucial to the health and growth of the newborn. If the mother's colostrum is not available, fresh cow or goat colostrum may be substituted, or **Ultra Start<sup>®</sup> Colostrum Supplement** may be used.

### FEATURES AND BENEFITS

- Highest quality, most nutritious multi purpose formula on the market.
- Complete and balanced nutrition for 10 different species.
- All-milk protein sources provide superior digestibility and performance.
- Fortified with 26 essential vitamins and minerals.
- Versatile product saves shelf space while meeting the needs of multiple buyers.
- Exclusive *Magic Crystal<sup>®</sup>* technology produces milk replacer that mixes easily and stays in suspension.

# Grade A<sup>®</sup> Ultra 24

## Multi-Purpose Milk Replacer

### DIRECTIONS FOR USE

Please see the following table for specific mixing and feeding instructions for each animal. Using the plastic cup enclosed in the pail or bag, mix the required amount of Grade A Ultra 24 powder into warm (115-120° F) water. Add powder to water and mix thoroughly. Allow the mixed milk replacer solution to cool to 95-100° F before feeding. The enclosed cup holds approximately 4 ounces (113 grams) dry powder by weight, equal in volume to a standard dry kitchen cup. *For dry supplement directions please see the product label.*

AGE		MIXING & FEEDING INSTRUCTIONS FOR LIQUID MILK REPLACER					
CALF	Birth - day 1	Feed ONLY COLOSTRUM – no milk replacer. Feed 2 to 3 quarts of colostrum as soon as possible after birth, then again every 8 hours for the first day of life.					
	Day 2 until weaning	Mix 2 enclosed cups (8 oz) of powder into 2 quarts of warm water. Feed 1-1/2 to 3 quarts of milk replacer twice daily (adjust for body weight).					
FOAL	Birth - day 1	Feed ONLY COLOSTRUM – no milk replacer. Offer 1 cup (8 fluid ounces, about 240 mL) every 1-1/2 to 2 hours for the first day of life.					
	Day 2 - 7	Mix 1/2 enclosed cup (2 oz) of powder into 2-1/2 cups of warm water. Offer 1 to 1-1/2 pints every 3 hours.					
	Week 2 - 4	Mix 1 cup (4 oz) of powder into 2-1/2 pints of warm water. Offer 2 pints every 3 to 4 hours.					
	Week 5 - 6	Mix 1 cup (4 oz) of powder into 1 quart of warm water. Offer 2 to 3 pints every 4 to 6 hours.					
	Week 7 until weaning	Mix 1 cup (4 oz) of powder into 1 quart of warm water. Offer 2 to 3 pints every 6 to 8 hours.					
LAMB OR GOAT KID	Birth - day 1	Feed ONLY COLOSTRUM – no milk replacer. <i>Lamb or Standard Goat Kid:</i> Offer 1/4 to 1/2 cup (2 to 4 fluid oz) of colostrum every 4 to 6 hours. <i>Pygmy Goat Kid:</i> Offer 1 to 2 fluid oz of colostrum every 4 hours.					
	Day 2 - 10	<i>Lamb:</i> Mix 1/2 cup (2 oz) of powder into 1 cup of warm water. Offer 1/2 to 1 cup (4 to 8 fluid oz) 4 times daily. <i>Standard Goat Kid:</i> Mix 3/4 cup (3 oz) of powder into 1 pint of warm water. Offer 1 cup (8 fluid oz) 4 times daily. <i>Pygmy Goat Kid:</i> Mix 1/2 cup (2 oz) of powder into 1-1/3 cups of warm water. Offer 1/2 cup (4 fluid oz) 4 to 5 times daily.					
	Day 11 until weaning	<i>Lamb:</i> Mix 1/2 cup (2 oz) of powder into 1 cup of warm water. Offer 1 cup (8 fluid oz) 3 to 4 times daily. <i>Standard Goat Kid:</i> Mix 2/3 cup (2.7 oz) of powder into 1 pint of warm water. Offer 1 cup (8 fluid oz) 3 to 4 times daily. <i>Pygmy Goat Kid:</i> Mix 1/2 cup (2 oz) of powder into 1 cup of warm water. Offer 1/2 cup (4 fluid oz) 4 times daily.					
CRIA (LLAMA OR ALPACA)	Birth - day 1	Feed ONLY COLOSTRUM – no milk replacer. <i>Llama cria:</i> Offer 3/4 to 1 cup (6 to 8 fluid oz) of colostrum every 4 to 6 hours. <i>Alpaca cria:</i> Offer 1/2 to 3/4 cup (4 to 6 fluid oz) of colostrum every 4 to 6 hours.					
	Days 2 - 14	Mix 1/4 enclosed cup (1 oz) of powder into 1 cup of warm water. <i>Llama cria:</i> Offer 1-1/2 to 2 cups (12 to 16 fluid oz) 4 times daily. <i>Alpaca cria:</i> Offer 1 to 1-1/2 cups (8 to 12 fluid oz) 4 times daily.					
	Day 15 until weaning	Mix 1/4 cup (1 oz) of powder into 1 cup of warm water. <i>Llama cria:</i> Offer 2 to 3 cups (16 to 24 fluid oz) 4 times daily. <i>Alpaca cria:</i> Offer 1-1/2 to 2-1/2 cups (12 to 20 fluid oz) 4 times daily.					
FAWN OR ELK CALF*	<i>Important Safety Note: Male deer and elk that are bottle-raised should be castrated to help prevent dangerous aggressive behavior.</i>						
	Mix 1 cup (4 oz) of powder per pint of warm water. *Offer elk calves about twice as much milk replacer as fawns, adjusting for body weight.	<b>Amount of Mixed Milk Replacer to Offer a Fawn (fluid ounces)</b>					
		Wk 1	2-1/2 oz every 3 hours	Wk 5	6 to 7 oz every 6 hours	Wk 9	10 to 12 oz twice daily
		Wk 2	3 to 3-1/2 oz every 3-1/2 hrs	Wk 6	9 oz 3 times daily	Wk 10	9 to 10 oz twice daily
		Wk 3	4 oz every 4 hours	Wk 7	8 to 9 oz 3 times daily	Wk 11	8 to 9 oz twice daily
Wk 4	5 oz every 5 hours	Wk 8	8 oz 3 times daily	Wk 12	12 to 15 oz once daily		
BABY PIG	Days 1-5	Mix 1 cup (4 oz) of powder into 1 quart of warm water. Offer 1 to 2 pints per pig free choice daily.					
	Days 6-10	Mix 1 cup (4 oz) of powder into 1 quart of warm water. Offer 3 to 5 pints per pig free choice daily.					
	Days 11-15	Mix 1 cup (4 oz) of powder into 1 quart of warm water. Offer 5 to 8 pints per pig free choice daily.					
	Days 16-21	Mix 1 cup (4 oz) of powder into 1 quart of warm water. Offer 8 to 12 pints per pig free choice daily.					
PUPPY OR KITTEN	<i>Note: Grade A Ultra 24 is intended for intermittent or supplemental feeding only in kittens, in addition to the mother's milk or the nutritionally complete kitten milk replacer formula of your choice.</i>						
	Week 1	Mix 1/4 enclosed up (1 oz) of powder into 1 cup of warm water. Offer 1 teaspoon (approx. 5 mL) of milk replacer per 4 ounces (1/4 pound) of body weight every 3 to 4 hours.					
	Weeks 2 - 4	Mix 1/4 cup (1 oz) of powder into 1 cup of warm water. Offer 1 teaspoon (approx. 5 mL) per 4 ounces (1/4 pound) of body weight every 4 to 6 hours.
